

## SPORIFY Bulletin: User Group Meeting

**Dear Customer,**

Yesterday, SPORIFY hosted its first interactive user group meeting of the year. We were delighted to see so many of you in attendance and hope that those of you who were there found the session both interesting and informative.

We would also like to thank our guest speaker, BMS' Patrick Middag, for his excellent talk on the implementation of SPOR/DADI in the EU. We believe that the insights he provided will be very useful to anybody working towards IDMP alignment.

For those who could not make it, a recording of the meeting, as well as the slides that were used, are attached for your convenience. The video will be available for 30 days.

As always, please do not hesitate to get in touch with us if you have any questions or feedback.

Kind regards,

**The SPORIFY team.**
