SPORIFY 2023.1.3 Bulletin

We would like to inform you that SPORIFY 2023.1.3 was not released as planned this past weekend.

This delay in deployment of the release is due to an unforeseen infrastructure issue with our internal development environment which has resulted in our Quality Control team not being able to perform the final Quality pass on the release prior to deployment.

We continue to work with our infrastructure colleagues to resolve this matter, and we will communicate a new release date to you as soon as possible.

Thank you for your patience, and apologies for any inconvenience this may cause.

Kind regards,

SPORIFY
