

SPORIFY Newsletter: October 2025

Welcome to the October edition of the SPORIFY newsletter, where we reflect on all that has happened since July and look forward to the final months of 2025.

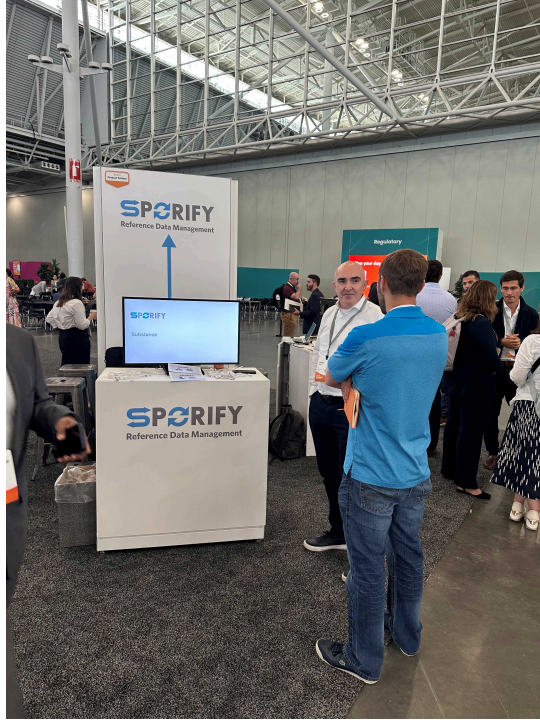

Reflections on Q3

We were delighted to attend the Veeva R&D and Quality Summit in Boston at the start of September. It was wonderful to meet so many of our valued customers, connect with fellow life sciences professionals, and have the opportunity to introduce SPORIFY to a wider audience.

We also attended the TOPRA Symposium in Berlin at the end of September. At this event, numerous highly-knowledgeable regulatory professionals and insightful thought leaders came together to talk about issues affecting the current regulatory affairs landscape.

More recently, we were at the Global Pharmaceutical Regulatory Affairs Summit in Berlin, which saw a selection of authorities and industry experts meet to discuss topics ranging from regulatory information management and digital transformation to IDMP implementation and data standardisation.

Likewise, over the past three months, our developers have been hard at work preparing for the next SPORIFY release.

What's Next for SPORIFY

At the moment, our development team are working on the upcoming SPORIFY release. Some of the exciting new features and functionalities that users can anticipate include:

- Synchronisation of Product data from EMA SPOR
- Upload of Product source lists
- Mapping of source Products to target lists
- View, search, filter, and export of Product data
- Configuration of MAH credentials
- Administration permissions for Product functionality

Upcoming Events

We are pleased to inform you that Breakthrough 2026 will be held in Madrid from February 10-11 next year. We highly recommend attending this event, which will provide valuable opportunities for attendees to engage with leading biotech, pharmaceutical, regulatory, and technology experts from around the world. We hope to see you there! Click on the button below to register.
