SPORIFY 2026.1.1.1 Hotfix Release

We apologize for the incomplete information included in our earlier downtime notice sent today. Please find the corrected version below which contains the missing information.

are writing to provide some important information about the upcoming SPORIFY 2026.1.1.1 hotfix release, which is scheduled for September 12. This hotfix will improve performance and fix RMS synchronisation challenges with term-summaries after the latest SPOR RMS release in July.

To facilitate the successful deployment of SPORIFY 2026.1.1.1, a brief downtime period is required. During this window, SPORIFY will be made temporarily unavailable. We recommend planning your SPORIFY activities around this to avoid any inconvenience.

The downtime period is as follows:

- **Date: 12-Sep-2026**
- **Downtime Window: 10-14 IST**
- **Expected Duration: 4 hours**

Once the downtime has finished, users will regain full access to SPORIFY.

We thank you for your understanding. If you have any questions or concerns, please do not hesitate to get in touch with us.

Best wishes,

SPORIFY
