

Dear \$[FNAME|Customer|Guest]\$,

With the SPORIFY 2026.1 release on the horizon, we are writing to inform you of some important dates to add to you calendar over the next few months.

The UAT of Validation phase for SPORIFY 2026.1 runs from June 8 to July 17, with Production go-live commencing on July 25.

The major new enhancements and features included in this release are:

- A Product Comparison feature
- Loading of Veeva Products
- A Product module on the new SPORIFY platform

If you have any questions, please don't hesitate to email us at info@sporify.eu.

Kind regards,
