

SPORIFY Q4 Newsletter

As we move into the second half of November, we can't quite believe how near we are to the end of the year! Between various events and continuing to grow and enhance SPORIFY, it has certainly been a busy time for all the team.

We are very pleased to bring you the current news and reflect on the past few months in this latest edition of the SPORIFY newsletter.

News & Reflections

We are very happy to announce that Veeva named SPORIFY one of its Top 10 Solution Providers in Pharma Tech Outlook. SPORIFY also featured as the cover story, which provides a comprehensive overview of the tool, its advantages and the role it plays in IDMP alignment. If you would like to read this article, it can be accessed via the button below.

Over the past few months, SPORIFY has taken part in several international events and webinars. We have included a link to our latest webinar at the end of this newsletter.

SPORIFY co-founders Conor Corr and Gary Wilson attended the Veeva R&D and Quality Summit in Boston in September. They were very pleased to meet several SPORIFY customers and connect with various industry leaders over the course of this fantastic event.

In October, Gary attended the Global Pharmaceutical Regulatory Affairs Summit in Brussels. This summit focused on the topics of Regulatory Information Management, Global eSubmissions, Regulatory Guidance and Legislative Landscape, and Regulatory Affairs in Global Markets. We met with many IDMP thought leaders including SPORIFY customers, regulators and members of the EMA SPOR team.

Gary also attended the TOPRA Annual Symposium in Lisbon, which is an annual conference for healthcare regulatory affairs featuring speakers from industry, regulatory and academic sectors.

Gens & Associates 2024 World Class RIM Study

We would like to invite our customers to participate in the 2024 World Class RIM Study by Gens & Associates. Although SPORIFY is not a RIM system, many of you integrate SPORIFY data into your RIM systems so your feedback regarding SPORIFY in this survey will be very helpful to us.

Gens & Associates are preparing to conduct their 2024 World Class RIM study – considered the premier regulatory industry benchmark study, with 80-100 organisations expected to participate.

Firms who enroll expect to see benefits including:

- Informing strategic planning with feasibility and ROI of key business cases
- Improving operational performance by adopting proven best practices
- Understanding performance measured against peers and industry benchmarks
- Capitalising on emerging trends with insights into upcoming innovations

To learn more, check out the Gens & Associates' World Class RIM Study page.

Webinar: Establishing Data Governance for IDMP

Setting up effective governance that will enable a life sciences organisation to truly use data as a strategic asset can be complex and needs a strategic approach to be successful.

In this sponsored on-demand webinar, leaders from Bristol Myers Squibb and SPORIFY discuss how data governance and reference data management connect to an organisation's strategic goals.
