

Welcome to the July edition of SPORIFY's quarterly newsletter. We hope that you have been enjoying the summer so far. Now, we are going to discuss what has been happening since April, and anticipate all that is to come over the next few months for SPORIFY.

Reflections on Q2

Highlights of the past quarter include the brilliant events we attended in Europe and the United States. In June, we were delighted to take a trip to the Veeva R&D and Quality Summit in Madrid. We also attended the DIA 2025 Global Annual Meeting in Washington, which brought together regulatory experts, healthcare innovators, and thought leaders to chat about the future of the life sciences industry.

Moreover, our developers spent the last three months hard at work on upcoming SPORIFY releases, focusing on introducing the highly-anticipated PMS module, as well as making improvements to the system's overall performance.

What's Next for SPORIFY

At the moment, the SPORIFY development team are working on the SPORIFY 2023.1.5.0 release, which will be made available to customers later this year. The scope of this release includes the following features and functionalities:

- Synchronisation of Product data from EMA SPOR
- Upload of Product source lists
- Mapping of source Products to target lists
- View, search, filter, and export of Product data
- Configuration of MAH credentials
- Administration permissions for Product functionality

Upcoming Events

We are pleased to announce that we will be at the Veeva R&D and Quality Summit in Boston from 3-4 September. This event will see more than 2,400 life sciences professionals gather together to connect, learn, and collaborate. Use the button below to register; we hope to see many of you there!

Veeva Summit

We will also be in attendance at the TOPRA Symposium 2025, which is being held in Berlin from 29 September to 1 October. With individual programme streams for Human Medicines, Veterinary Medicines, and Medical Devices/IVDs, this event will bring together regulatory professionals and thought leaders to discuss key topics pertaining to the current regulatory affairs landscape.

TOPRA 2025

From October 21-23, we will be at the Global Pharmaceutical Regulatory Affairs Summit in Berlin. GPRAS 2025 promises to be a highly-informative conference that sees authorities and industry experts speak on topics including regulatory information management and digital transformation, IDMP implementation, and data management and standardisation.

GPRAS
