

We hope this email finds you well.

We are pleased to invite you to our new presentation format: an introduction to the upcoming SPORIFY features. The first session is for the 2026.2 release. It will be held on Wednesday, September 16 at 14:00 UTC.

In this webinar, we will provide a detailed walkthrough of the new features that will be introduced in the SPORIFY 2026.2 release.

After a brief introduction, we will explain the functions and benefits of each new feature. The following topics will be discussed in depth:

- Extension of Product Module
- Enrichment of Veeva With PMS IDs
- Enablement of Customer Facing Product API for 3rd Party Integration
- Introduction of Insights into New Products
- Uploading of Products Via Excel
- Addition of Product Matching on MA Numbers
- Enhancement of Product Comparison Feature

Finally, we will answer any questions that you may have about the upcoming release.

Don't forget to register for this event. We look forward to seeing you there.
